_____ (Signature of person authorized to sign)				BY _____ (Signature of Contracting Officer)		17-Sep-2004	

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

The following items are applicable to this modification:

1. The purpose of this amendment one (0001) dated 17 September 2004 is to extend the closing date and to address questions pertaining to this project as follows:

a. Question: The attached floor plan indicates a pre-engineered metal building (see bay spacing at 20'), typically erected on site on a concrete slab foundation. The solicitation refers to a modular building. Is this requirement for a factory built, modular office building?

RESPONSE: Modular Office Building is required. The foundation may be on a concrete slab or on a concrete footing; work to be accomplished by others.

b. Question: The dimensions on the attached plan are not necessarily the ideal dimension for a factory built modular building. Will you accept some minor changes to the floor plan and overall dimensions, as long as we provide the same square footage of 8,000 square feet?

RESPONSE: Adjustments to the floor plan and overall dimensions shown on the plans are acceptable as long as the building square footage remains as 8,000 square feet. The plan provided is for reference purposes.

c. Question: Can we quote a metal building structure and if so, then can we have enough time for the submittal process which in some cases take longer than expected.

Response: A modular building is what is being expected for this effort. The submittal process will allow adequate time for review and approval.

d. Question : If this is a modular building does it fit adjacent to another building, since we have to match the colors, also what is the colors and why would we have skirting if this structure sits on a concrete slab.

Response : This modular building is a stand alone function. There are facilities in the general vicinity but nothing directly adjacent to this structure. New facilities must match the existing character of the area. Skirting is required to for aesthetic purposes.

e. Question : It's my under standing that the electrical and mechanical, site work and concrete is all seperate correct.

Response: These items are all being pursued under a separate contract.

2. The closing date and time is extended:

DELETE: 20 September 2004. 3:00 P.M. LOCAL TIME

INSERT: 21 September 2004. 3:00 P.M. LOCAL TIME

3. Offerors must acknowledge all amendments by date and number.
